

Attorney's Case No: 6-3707C

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

Applicants:	Robert H. Breeden	Art Unit:
Serial No:		Examiner:
Filed:		
Title:	Pump Assembly and Method	

PRELIMINARY AMENDMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Dear Sir:

Proposed Amendment to the Drawings

Amend Figure 6 as shown in red on the attached copy of Figure 6 as filed.

Amendment to the Specification

Insert the following paragraph at page 7, after line 23:

--Bores or openings 110, like bores 102, are formed through sleeve 242 to permit flow of high-pressure oil from the pumps to high-pressure outlet passage 44.--

Remarks

The parent application, Serial No. 09/580,877, disclosed two plug assemblies 90 and 240 at Figures 16, 17, 18 and 19. These figures correspond to present application Figures 3, 4, 5 and 6. The two assemblies close the outer ends of the piston bores to prevent leakage of pumped, high-pressure oil.
